EDUCATION

Heritage Institute of Technology

2023 – 2027

B.Tech in Computer Science and Engineering – CGPA: 7.35

Kolkata, West Bengal

COURSEWORK / SKILLS

- Data Structures & Algorithms
- Operating Systems
- Computer Networks
- Database Management System (DBMS)
- Artificial Intelligence
- OOPS Concept
- Web Development
- SQL

PROJECTS

Crop Disease Detection Web Application [🔗](#) —

Tools: Python, TensorFlow, Machine Learning, Convolutional Neural Networks (CNN)s

Aug 2025

- Developed an AI-enabled web application that automatically identifies diseases in crop leaf images using deep learning models.
- Trained a Convolutional Neural Network (CNN) on labeled plant leaf datasets to classify healthy vs diseased crops with high accuracy.
- Built an intuitive front-end interface where users can upload crop images and receive real-time disease predictions with corresponding confidence scores.
- Implemented backend REST APIs using Flask (or Streamlit) to process image uploads, run inference, and return diagnosis results instantly.
- Improved agricultural accessibility by enabling early disease detection to support timely intervention and reduce crop loss.

Schedulr – Timetable Creator Automated Attendance System [🔗](#) —

Tools: Next.js, TypeScript, Tailwind CSS, Node.js, Express, PostgreSQL, QR Code IntegrationL

Apr 2025

- Built a full-stack scheduler application that automatically generates conflict-free class timetables based on courses, rooms, timeslots, and group constraints.
- Designed role-based dashboards for admins, faculty, and students with secure JWT-based authentication and access control.
- Integrated QR-code-based attendance marking for students, enabling fast real-time attendance capture and secure session validation..
- Developed backend REST APIs using Express Prisma ORM to manage schedule data, user roles, sessions, and attendance records.
- Implemented mobile-friendly front-end using Next.js and Tailwind CSS, optimized for both desktops and handheld devices.

TECHNICAL SKILLS

Languages: C, Java, Python, JavaScript

Developer Tools & IDEs: Git, GitHub, Linux, VS Code, PyCharm, IntelliJ IDEA, Code Blocks, Canva

Technologies/Frameworks: HTML, CSS, Tailwind CSS, ReactJS, NodeJS

Databases: MySQL, Oracle

Libraries: NumPy, Pandas, re

CERTIFICATIONS & ACHIEVEMENTS

- Solved **100+ DSA problems** on [GeeksforGeeks \(GFG\)](#), strengthening problem-solving skills across core data structures and algorithms.

- Completed ”**Complete Beginner’s Guide to Java in 5 Hours**” course on Udemy, gaining Java fundamentals and entrepreneurial insights
- Ranked **25th of 200 teams (top 12%)** at **AIGNITE’25** for developing an AI-based solution.

EXTRACURRICULAR ACTIVITIES

Completed Google Cloud Arcade Facilitator Program 2025

2024 – 2025

Gained hands-on experience with cloud technologies and Google Cloud Platform services.

Member of National Service Scheme

March 2023 – Present

Active Member of NSS-HITK, Heritage Institute of Technology

Kolkata, India
